

Options, Resources and Services for Those who have Experienced Sexual Violence Information Document

Introductory Note:

The University of Alberta respects each person's right to make their own decisions regarding their personal recovery after **sexual violence**. This document is intended to provide a non-exhaustive list of the various options available so that all students, staff, postdoctoral fellows and faculty can assist in making appropriate referrals upon receiving a **disclosure** or make informed decisions for themselves after experiencing sexual violence.

Individual reactions to sexual violence will differ greatly, and a person's decision about how to respond to an experience of sexual violence may change over time. Whether the result of a disclosure or a **complaint**, the University can assist with some of those responses, including providing academic, work or University residence **modifications**, safety planning, personal support, making a complaint or other options that meet the goals of the Sexual Violence policy and related procedures.

Some may need a more comprehensive and coordinated response. The **SVCT** (Sexual Violence Coordination Team) is convened when an individual discloses that they have experienced sexual violence, and may need more than one modification to meet the goals of the Sexual Violence policy. It is designed to provide access to multiple options, resources and responses without the individual having to approach each service separately.

It should be understood that mediation is not appropriate for situations involving sexual violence. Mediation is a conflict resolution mechanism that presumes all parties have an equal role in resolving a conflict. Sexual violence is not a conflict, but a harm inflicted on another person. Mediation introduces a significant risk of additional harm to the person to whom the violence was done and should never be considered an option in cases of sexual violence.

DEFINITIONS

Any definitions listed in the following table apply to this document only with no implied or intended institution-wide use. [▲Top]	
Sexual violence	Any sexual act or act of a sexual nature, or act targeting sexuality, whether physical or psychological, committed without consent. This includes, but is not limited to sexual assault, sexual harassment, stalking, indecent exposure, voyeurism, distribution of intimate images, inducing intoxication, impairment or incapacity for the purpose of making another person vulnerable to non-consensual sexual activity, and other analogous conduct.

Disclose/Disclosure	A verbal or written report or account by any person to a member of the University community that they have experienced sexual violence.
Complaint	Usually a written report or statement alleging sexual violence misconduct made to a University official under a University process for the purpose of initiating an investigation and resolution process.
Modifications	Adjustments the University may be able to make for a person who has experienced sexual violence, including to their academic program, employment, University residence or recreational or other programs.
SVCT	The Sexual Violence Coordination Team’s purpose is to assist after someone has disclosed sexual violence and may need more than one modification to meet the goals of the Sexual Violence policy. It is designed to provide access to multiple options, resources, and responses without the individual having to approach each service separately. At its core, SVCT consists of a representative from the Office of the Dean of Students or Human Resource Services, UAPS and the Sexual Assault Centre. In order to provide a timely coordinated response, SVCT will draw additional support from a student’s faculty, the Registrar’s Office, Faculty and Staff Relations, Residence Services, the Postdoctoral Fellows Office, representatives from other campuses, Office of General Counsel, and any others as needed. SVCT will not include any members who may be investigators or adjudicators in the matter at hand, in the event that the individual decides to pursue a complaint.
Interim measures	Non-disciplinary conditions that the University may impose on a person alleged to have committed sexual violence. Such conditions may be imposed in response to a disclosure or complaint. The purposes of interim measures are to ensure the safety of the person who disclosed or of the University’s learning, working and University residence environment, to discourage or prevent retaliation, prevent further sexual violence and/or preserve the University’s ability to conduct a thorough investigation. They are not considered sanctions under any University complaint process and in any complaint process, are without prejudice to the person against whom a complaint is made.
