Overview

The Buildings and Grounds Services Department has the responsibility for the provision of custodial and grounds services intended to maintain and enhance the environment for students, staff, and visitors. In its effort to maintain an aesthetic and functional campus environment, the University of Alberta, while accommodating the announcement of certain University events, messages, or products, requires that campus groups have appropriate approvals prior to displaying messages. At the same time, the University is responsible for taking reasonable steps to ensure the safety of all members of the University community and its visitors, to ensure the proper functioning of the University, for protecting and managing its property, and for exercising good stewardship of public resources. Groups or individuals, whether they are members of the University community or visitors to campus, must adhere to consistent posting standards for the various campus locations in which they are posting.

Any posting that makes use of University space or facilities must comply with applicable laws and University policies and procedures. The University reserves the right to deny the use of space or to make activities within University space subject to conditions – such as security, insurance, or signature of a waiver – if the University has concerns regarding risks of safety to persons, property damage, or interference with the proper functioning of the University. The University may exercise this right at its sole discretion.

The University values the expression of diverse points of view. Where a posting is lawful and compliant with University policies and procedures, content will not be a factor in determining approval of posting announcement, notices, and banners.

Buildings and Grounds Services is also responsible for the oversight of agreements for advertising in common areas (i.e. washrooms, walkways), and the monitoring and removal of banners, notices, etc. that are posted without approval or outside the appropriate posting guidelines.
