Overview

Principal Investigators (PIs), Project Holders, administrators in faculties and departments, and central administrative units need to understand their respective roles regarding the administration of research proposals and awards at the University of Alberta. The general philosophy at the University of Alberta is to have many of the processes take place as close to the PIs as possible and only use central teams where this is the most effective form of meeting the obligations.

Note: This Procedure does not apply to Special Purpose projects. Refer to Guide to Financial Management.

Purpose

To set out the primary responsibilities of the major parties involved in research administration at the University of Alberta.

PROCEDURE

Summary:
Principal Investigator (PI)
Project Holder
Department and Faculty
Research Services Office (RSO)

Note: The roles of Financial Services, Supply Management Services, Human Resource Services, Information Services and Technology, TEC Edmonton and the Office of Advancement are not addressed in this document as these roles are not research specific but are common to all funds including research.

The Research Ethics Office administers all review and approval processes for both funded and unfunded human participant research and research, teaching and testing using animals. Environmental Health & Safety is responsible for chemical, radiation and biosafety certifications.

Procedure Details:
1. PRINCIPAL INVESTIGATOR (PI)

In general, the PI is required to carry out research responsibly. The primary responsibilities of the PI are:
U of A Policies and Procedures On-Line (UAPPOL)

a. Preparing proposals that:
   i. meet the requirements of the sponsor;
   ii. comply with relevant University policies and procedures;
   iii. budget for all direct costs;
   iv. include indirect costs in accordance with sponsor terms and conditions and University policies and procedures;
   v. identify in writing the space and other resource requirements;
   vi. include a completed University request form;
   vii. include the signatures of all University co-principal investigators; and
   viii. include the signatures of the Department, Faculty and RSO.

b. Approving proposals and awards, where the PI’s signature denotes that:
   i. the PI will abide by sponsor terms and conditions and the University’s policies and procedures;
   ii. the PI meets the sponsor’s requirements; and
   iii. all appropriate certifications will be obtained and maintained for the duration of the research activities.

c. Disclosing any conflict of interest or potential conflict of interest at the time of the proposal or at any time during the term of the award.

d. Ensuring that proposals are submitted to sponsors.

e. Where the PI is the project holder complying with Section 2 below.

f. Managing and supervising research personnel by:
   i. recruiting appropriate personnel for the project, including submission of pay action forms on a timely basis;
   ii. abiding by University policies and procedures including those relating to Human Resource Services where acting as a supervisor; and
   iii. ensuring all staff and students engaged in the research are fully informed of and agree to be bound by the terms and conditions of the award.

g. Producing and managing research records in accordance with the University’s policies and procedures and sponsor requirements.

h. Preparing all required reports and deliverables in accordance with the terms and conditions of the award.

i. Advising the project holder, Department, Faculty, RSO and sponsor of:
   i. any change in academic status, (e.g. extended, sabbatical, medical, maternity or paternity leave; retirement or resignation, etc.);
   ii. any significant change to the research that was originally approved; and
   iii. any other changes that may impact the terms and conditions of the agreement.

[Return to Summary]

2. PROJECT HOLDER

In many cases, the project holder and PI will be the same person. However, there are instances where the PI cannot be the project holder pursuant to University policy. The primary responsibilities of the project holder are:

a. Exercising financial control over research funds, including:
   i. approving all expenditures where such approval indicates that expenditures are
      - eligible in accordance with the terms and conditions of the award;
- necessary to the research being undertaken;
- reasonable and conform with the financial guidelines of the sponsor and University;
- incurred within the eligible dates of the award.

ii. reviewing and approving financial reports;

iii. monthly review and verification of research expenditures and other project information using PeopleSoft; and

iv. processing expenditures in the fiscal year incurred.

b. Delegating signing authority in accordance with University policy.

c. Being personally responsible for unauthorized over expenditure, ineligible costs, and revenue lost due to failure to meet the terms and conditions of the award.

d. Submitting all required reports and deliverables to the sponsor in accordance with the terms and conditions of the award.

e. Advising the Department, Faculty, RSO and sponsor of:
   i. any change in academic status of the project holder (e.g. extended, sabbatical, medical, maternity or paternity leave; retirement or resignation, etc.);
   ii. any other changes that may impact the terms and conditions of the agreement.

[Return to Summary]

3. DEPARTMENT AND FACULTY

In general, Chairs and Deans are responsible for supporting research activities undertaken by PIs (including co-principal investigators) in their Departments and Faculties. More specifically, their primary responsibilities include:

a. Approving all proposals prior to submission, and approving awards, where their signatures denote that the Department and Faculty:
   i. are willing to administer the research funds in accordance with University policies and sponsor terms and conditions;
   ii. support the proposed activity;
   iii. confirm the availability of space and other resources that the PI and any co-principal investigator has declared;
   iv. have the ability to provide administrative support to the research activity;
   v. confirm compliance with the University’s Eligibility to Apply for and Hold Research Funding Policy; and
   vi. agree to the negotiated terms and conditions.

b. Implementing effective systems to ensure that:
   i. research is carried out in compliance with University policies and sponsor terms and conditions;
   ii. PIs provide research deliverables and reports; and
   iii. real and perceived conflicts of interest are assessed and managed.

c. Implementing internal control procedures for:
   i. monitoring award finances;
   ii. ensuring action is taken to address
      - potential or actual over expenditures;
      - potential conflict with sponsor terms and conditions and University policies;
      - eligibility of expenditures;
- award end date management; and
- dormant (balance has not changed in 1 year) projects.

iii. providing one-over-one approval for expenses paid directly to the PI or project holder. Such approval implies that expenses are reasonable and conform to sponsor terms and conditions and University policies and procedures.

[Return to Summary]

4. RESEARCH SERVICES OFFICE (RSO)

In general, RSO facilitates the collaborative identification and implementation of services, systems and processes on a timely basis that will enhance research administration by:

- improving communication with researchers;
- ensuring accountability to all stakeholders;
- working collaboratively with internal and external partners to implement best practices in research administration, accountability and compliance;
- providing related education and training for researchers and administrators;
- providing assistance to researchers and other University staff on administrative processes; and
- liaising with sponsors to ensure compliance with the most recent guidelines and to resolve conflicts and concerns (where applicable).

More specifically, RSO’s primary responsibilities are:

a. Processing proposals by:
   i. providing assistance to identify potential sources of financial support for research projects;
   ii. maintaining website with comprehensive links to sources of funding opportunities (internal and external);
   iii. approving and signing research proposals on behalf of the University, where the signature indicates the proposal meets applicable University policies and procedures and sponsor requirements; and
   iv. submitting proposals to sponsors on behalf of the institution when required.

b. Processing awards by:
   i. confirming that the University is able to meet the sponsor’s requirements including institutional commitments (e.g. matching funds, space, personnel, etc.);
   ii. confirming that the terms of the award are compatible with University policies and procedures, including but not limited to:
      - publication provisions;
      - intellectual property provisions;
      - risk management provisions;
      - eligibility to apply for and hold research funds;
      - indirect costs have been included as allowable; or
      - appropriate certifications are secured prior to the release of funds.
   iii. negotiating, approving and signing research agreements and contracts on behalf of the University in accordance with relevant University policies and procedures; and
   iv. communicating to PIs, Project Holders, Department and Faculty on sponsor decisions and administrative requirements related to notices of awards.

c. Processing subgrants to other institutions by:
   i. creating, negotiating and signing the agreement/contract with the recipient organization where the RSO signature means the following:
- confirmation of instructions from project holder; and
- confirmation of funder’s restrictions on use of funds;
  
ii. submitting payment request forms; and

iii. obtaining financial reports from recipient organization(s).

d. Administering institutional awards, which includes:
  
i. submitting proposals on behalf of the University in accordance with relevant policies and procedures; and

ii. exercising financial control over funds received, including monitoring and approval of transactions.

e. Carrying out financial administration of research funds received by the University, which includes:
  
i. establishing projects for successful awards and providing account maintenance over the life of the awards and beyond as necessary;

ii. coordinating continued compliance with sponsor terms and conditions;

iii. generating invoices during life of the award in accordance with the sponsor terms and conditions;

iv. preparing and submitting financial reports to sponsors;

v. monitoring over expenditures on behalf of the University and providing regular reports to senior executives;

vi. coordinating financial audits and expenditure compliance testing;

vii. approving and processing journal entries for research projects;

viii. processing indirect cost allocation;

ix. managing outstanding accounts receivable;

x. monitoring dormant projects; and

xi. closing completed research projects.

f. Managing the PeopleSoft research systems, including:
  
i. PeopleSoft maintenance and upgrades;

ii. maintenance and creation of research reports and public queries; and

iii. developing and maintaining online tools.

DEFINITIONS

Any definitions listed in the following table apply to this document only with no implied or intended institution-wide use. [▲Top]

<table>
<thead>
<tr>
<th>Principal Investigator</th>
<th>A researcher who is primarily responsible for the intellectual contribution to the research proposal, application, agreement, contract or award and is responsible for the overall direction of research activities of the research project.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project Holder</td>
<td>The individual who is accountable according to University policy for the receipt of the project funding and appropriate expenditure of this funding ensuring that it is for University operations in compliance with the terms and conditions of the sponsor(s) and University policy and procedures.</td>
</tr>
<tr>
<td>Research</td>
<td>An undertaking intended to extend knowledge through a disciplined inquiry or systematic investigation which also includes experimental development and is comprised of creative work undertaken on a systematic basis in order to increase the stock of knowledge, including</td>
</tr>
</tbody>
</table>
knowledge of humanity, culture and society, and the use of this stock of knowledge to devise new applications. It may take basic, applied or experimental development forms.

The following activities, in the absence of a specific element of research, do not generally fall within this definition:

- Procedures and practices exclusively used for pedagogic purposes including classroom discussion, practicum observation, student-teacher interviews and consultations, interviews and consultations with experts for teaching and learning purposes, testing within normal educational requirements and teaching evaluations
- Normal practice of a profession including medicine, law and engineering.
- Quality assurance studies and performance reviews of an organization or its employees or students within the mandate of the organization or according to the terms and conditions of employment or training.

### Proposal
Initial submission to the sponsor of an application or other document that contains the scientific description of activities, scope of work and budget. Includes amendments.

### Award
Approved proposal including the terms “grant”, "contract”, “notice of award”, “agreement”, etc.

### Certifications
Includes relevant approvals for research involving humans, animals, stem cells, biohazards, field work as required by relevant University policies and procedures.

### Sponsor
A company, agency or individual paying for or requesting the research.

### Signature
Includes wet ink, scanned, digital or electronic signatures and online approvals.

### Over Expenditure
Occurs when expenditures have exceeded the total budgets approved to date.

### Subgrant
Transfer of a portion of an award from the University to a principal investigator at another organization, where such transfer is made on terms consistent with the terms of the award.

### Institutional Awards
Awards held by the Vice-President (Research) on behalf of the University, which may include:

- Canada Foundation for Innovation and provincial partners
- Canada Research Chairs
- Canada Excellence Research Chairs

### FORMS
There are no forms for this Procedure.
